

Dear PMI Belgium Board Members,

Thank you for supporting our project, FRESH START, with your inspiring presentation at our DEMODAY “Networking and Ceremony” event on the 22nd of January.

Fresh Start is a European project. UC Leuven Limburg cooperates with LSBU and Hogeschool Zuyd to create a model of integration through entrepreneurship for people with an international background. Our aim is very much to go beyond the simple provision of support. We want to develop and pilot a platform that can be replicated and scaled, to create an ecosystem of support services to empower and enable migrants, nurturing their entrepreneurial spirit. We provide access to local knowledge, networks and businesses to help migrants to navigate the system in their host country, and to support their start-up enterprises.

The project management skills are important for entrepreneurs and our participants are grateful for the practical PM workshop that PMI has done and also for the addition workshop you did on February 11th at UCLL in Genk.
