SO THIS IS AGILE...?!

▲ Agile is about a **philosophy** and **principles**

Best **business value** emerges when projects are **aligned to clear business goals, deliver frequently** and involve the **collaboration of motivated and empowered** people

1. Focus on the Business Need
2. Deliver on Time
3. Collaborate
4. Never Compromise Quality
5. Build Incrementally from Firm Foundations
6. Develop Iteratively
7. Communicate Continuously and Clearly
8. Demonstrate Control

A FINAL THOUGHT

▲ Question at the beginning of the session:
“Agile or not for my project?”

▲ Improved question:
**“Agile?
Yes of course!
But how much?”**
