- For **IT** organizations

Target Clients

- Larger enterprises going through **deep change**
- Scale-ups seeking for **more professionalism / structure**

Some ETS 2018 Challenging Engagements

Creation of a main information source and platform Airport Operations Plan (AOP) in order to pro-actively intervene in the processes before bottlenecks occur by informing related departments and staff and giving them insights in the actual and forecasted situation at any time.

Establishment of an Enterprise Architecture Function to improve Governance of IT.

Consolidation of company Business and IT Processes in merger and growth context.

Definition and execution of a Transformation Roadmap to build a digital platform for a Producers/Distributors/Consumers ecosystem.
