

Talenca consulting is looking for a medior Project manager.

Details :

Location : Anderlecht

Start date: 01/01/2021

Role:

- You participate in the 3 activities of the team:
 - Participate in technical solutions in IT infrastructure requiring a cross-technology vision
 - Realization of technical budget estimates of solutions
 - Management of business and internal requests and projects
- You have ownership of the activities assigned to you and are responsible for their successful completion on behalf of the department.
- You work together with the department's system and network technical teams to design solutions based on the department's service catalogue.
- If necessary, you discuss with external partners integrated in our solutions.
- You take over the management of projects to implement the solutions designed.
- You report on the status of requests and projects to the internal management of the department but also to the managers of business customers.

Profile :

- You have a proven experience of 3 to 5 years in the field of project management.
- You have a broad technical background rather than specific expertise in a particular field.
- You are familiar with Microsoft environment.
- Your technical knowledge covers system / network / cloud / security aspects.
- You are autonomous and you know how to organize yourself.
- English is a must have. (+ one national language)
- Any PMI certification is a +.
- You are able to communicate effectively and to adapt your level of speech to your interlocutor whether he is a technical engineer or a CxO-level manager.

Our offer :

- Competitive salary in line with the market
- Company car
- Fuel card
- Lunch allowance
- Net expenses
- A broad diversity of career options: you will not be stuck in a “box”
